

AVAILABLE JANUARY 2007!

631 pages. Paperbound
9 x 11. Full color. ©2008
ISBN: 0-495-10058-7

Also available in casebound, looseleaf,
and three-hole-punch formats

**Concept Charts booklet
packaged free with every
new textbook.**

Presents each chapter's key concepts and material visually and concisely, focusing students on important ideas and information. Developed by Weiten, this booklet is a great way to review chapter topics—and is especially important for students who respond more quickly to material that is presented visually.

**AVAILABLE TO ACCOMPANY
WEITEN'S TEXTBOOK**

Many innovative teaching and learning resources are available with the new edition, such as **PsykTrek™** (65 interactive learning modules correlated with the textbook), **JoinIn™ on Turning Point®**, **WebTutor™ Advantage on WebCT®** and **Blackboard®**, an extensive **Film and Video Library**, and more! Refer to the inside and back of this flyer for details.

PSYCHOLOGY: THEMES AND VARIATIONS

**Briefer Version, Seventh Edition
with Concept Charts!**

Wayne Weiten, *University of Nevada, Las Vegas*

Concise, current, conceptually integrated and media linked

Weiten challenges students AND makes learning easy!

This *Briefer Version* of Wayne Weiten's *Psychology: Themes and Variations* is often described as a book that makes the challenging concepts and theories of psychology easy to learn. *How does Weiten do it?* By combining a superbly integrated thematic organization with many practical applications, examples, and a cohesive set of in-text learning aids, Weiten helps students see beyond the clutter to grasp the big-picture concepts and topics—the themes and variations on those themes—that are at the heart of psychology. Weiten's themes and variations provide unifying threads across chapters that help students to see the connections among different research areas in psychology. Integrative themes—including empiricism, theoretical diversity, socio-historical contexts, multi-factorial causation, cultural heritage, heredity and environment, and subjectivity of experience—are woven throughout the text to provide connections among the different areas of research in psychology.

NEW FEATURES

- ▶ **ThomsonNOW™ for Psychology: Themes and Variations**, an intelligent, Web-based course management and study system that enhances the functionality of the Book Companion Website by providing a completely integrated package of diagnostic quizzes, *Personalized Study*, an e-Book, and more.
- ▶ **The LATEST research findings and NEW topics** within a complete, line-by-line updating of **EVERY** chapter—more than 800 new references.
- ▶ **Art that teaches, including expertly rendered NEW illustrations** by renowned biological/medical illustrator Fred Harwin, including neuroanatomical and physiological graphics.
- ▶ **NEW Bonus Modules** (access is available for packaging with new textbooks)—Three bonus “chapters”—“Industrial/Organizational Psychology,” “Careers in Psychology,” and “Gender and Human Sexuality”—help you to tailor your course and enrich coverage for your students. Available via online access and through Thomson Custom Publishing. Please contact your Thomson Wadsworth representative for ordering information.
- ▶ **Reflecting on the Chapter's Themes sections**, revised from the previous edition's “Putting It in Perspective” features, help students reinforce their understanding of each chapter's big-picture concepts.

MORE FEATURES THAT SET THIS BOOK APART

- ▶ **Chapter-by-chapter integration with PsykTrek™** (NEW ONLINE and CD-ROM versions available for packaging with the text)—**PsykTrek** features 65 interactive learning modules that engage students in exploring psychological concepts and topics, interacting with simulations, and participating in experiments.
- ▶ **A highly-praised didactic illustration program**—figures, diagrams, photos, and tables—that work hand in hand with the narrative to strengthen and clarify the main points in the text.
- ▶ **A two- to five-page Personal Application near the end of every chapter** that shows students the highly practical side of psychology. Each *Personal Application* focuses on a single issue, such as improving stress management, and many other topics.
- ▶ **A two-page Critical Thinking Application in every chapter**, contributed by Diane Halpern (Claremont McKenna College), a leading authority on critical thinking and past APA President, that teaches students critical thinking skills they can use in their academic and personal lives.

TABLE OF CONTENTS

1. The Evolution of Psychology
 2. The Research Enterprise in Psychology
 3. The Biological Bases of Behavior
 4. Sensation and Perception
 5. Variations in Consciousness
 6. Learning
 7. Human Memory
 8. Cognition and Intelligence
 9. Motivation and Emotion
 10. Human Development Across the Life Span
 11. Personality: Theory, Research, and Assessment
 12. Stress, Coping, and Health
 13. Psychological Disorders
 14. Treatment of Psychological Disorders
 15. Social Behavior
- Appendix A: Answers to *Concept Checks*
Appendix B: Statistical Methods
Appendix C: Critical Thinking About Internet Research Sources: What Students Need to Know

NEW AND UPDATED TOPICS THROUGHOUT PLUS . . . NEW EXPERTLY RENDERED ILLUSTRATIONS THAT CLARIFY COMPLEX CONCEPTS

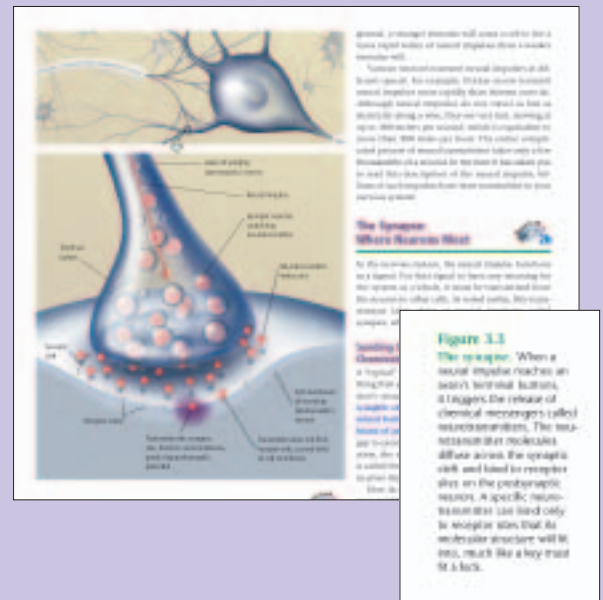

More than 800 new references and topics, for example:

- **Updated biological psychology coverage**—new research on glial cells' contribution to communication in the nervous system, added coverage of transcranial magnetic stimulation, new research on the correlation between intelligence and brain size, new information on genetic bases for food preferences, and how experience and expectations influence perception.
- **Streamlined and updated evolutionary coverage**, including the effects of ecologically relevant, conditioned stimuli; mate poaching; and why the human brain has evolved to organize color experience into four basic categories.
- **Greater attention to positive psychology throughout**, including a new section, "Psychology Moves in a Positive Direction," in Chapter 1.
- **Even more attention to cross-cultural and diversity topics.**
- **Updated coverage of human memory**, including Kandel's Nobel-winning work on memory and synaptic transmission.
- **New discussion of media violence** as it relates to observational learning.
- **A new section on terror management theory.**

NEW art that teaches, by Fred Harwin, award-winning medical illustrator

This Seventh Edition includes many new illustrations, including neuroanatomical and physiological graphics. Illustrator Fred Harwin, nationally renowned for his scientifically accurate, beautifully rendered works, has collaborated with author Wayne Weiten throughout the design process to give your students illustrations that teach, clarify, and reinforce!

Weiten's text . . . PsykTrek™ . . . ThomsonNOW™ A POWERFUL MULTIMEDIA TRIO FOR INTERACTIVE LEARNING

PsykTrek™: A Multimedia Introduction to Psychology Intriguing . . . Interactive . . . Fully integrated with Weiten's textbook

Available on
CD-ROM and online

With exceptional graphics, animations, video segments, and other interactive resources, **PsykTrek** guides students in actively exploring psychology's concepts and phenomena. Within its intuitive landscape, students participate in classic experiments and manipulate visual illusions in ways that will make them doubt their own eyes.

- **Icons throughout every chapter** direct students to related study on **PsykTrek**.
- **Sixty-five learning modules, including three NEW modules**—"Forgetting," "Attachment," and "Conformity and Obedience"—provide students with hands-on learning opportunities.
- **Ten in-depth simulations** explore complex psychological phenomena, such subjects as memory, social judgment, and creativity—giving students an active role in experimentation.
- **A Video Selector** offers direct access to more than 35 video segments, which include footage from B. F. Skinner and other interesting topics.
- **A multimedia glossary** includes detailed definitions of more than 800 terms, many with audio pronunciation and media elements.

ThomsonNOW™ for Weiten's *Psychology: Themes & Variations*, Briefer Version, Seventh Edition

Offering choice and flexibility, **ThomsonNOW** saves you time with ready-to-go tests, automatic grading, and an easy-to-use grade book—while *also* providing your students with effective *Personalized Study* that will help them excel in your course. **ThomsonNOW** includes:

- **Assignable diagnostic Pre-Tests and Post-Tests**
After reading a textbook chapter, students take the chapter's online *Pre-Test*—which you can assign as homework—to get an initial assessment of their grasp of key concepts. **ThomsonNOW** automatically grades the *Pre-Test*, and then provides students with *Personalized Study* guidance. Each chapter's *Post-Test* (also assignable) measures students' mastery of the chapter once they have completed their *Personalized Study* plans for the chapter.
- **Animations, video, demonstrations, an e-Book, live online tutoring, and more**
Each student's *Personalized Study* options include many interactive resources that focus on just the topics they need to review. If students need more help, they can click on the **vMentor™** icon and get live, online assistance from a psychology tutor.
- **A built-in grade book—WebCT® and Blackboard® integration**
When you assign **ThomsonNOW** to your students, the instructor grade book makes it easy for you to monitor student progress. The *Pre-* and *Post-Tests* are automatically graded, with results flowing directly into the grade book.

To include PsykTrek and/or ThomsonNOW with each new textbook

Book Companion Website
www.thomsonedu.com/psychology/weiten

Features a rich selection of teaching and learning resources, including chapter-by-chapter learning objectives, online tutorial quizzes, chapter-related web links, flashcards, critical thinking lessons, and other essential tools.

InfoTrac® College Edition with InfoMarks®

This exceptional online library places the full text of articles from more than 5,000 academic and popular magazines, newspapers, and journals at your students' fingertips.

OUTSTANDING RESOURCES FOR COURSE PREPARATION AND PRESENTATION

Multimedia Manager with Instructor Resources CD-ROM: A Microsoft® PowerPoint® Tool 0-495-31934-1

Written by Brian Malley of University of Michigan, this one-stop resource helps you enhance your Microsoft® PowerPoint® lectures with integrated art and chapter-by-chapter lecture outlines, a bevy of video clips, and other integrated media. **Multimedia Manager** also contains the full *Instructor's Resource Manual* and *Test Bank* in electronic format.

JoinIn™ on TurningPoint® 0-495-31935X

JoinIn™ The easiest audience response system you'll ever use, **JoinIn™ on TurningPoint®** enables you to engage students and assess their progress with instant in-class quizzes and polls. You can pose book-specific questions and display students' answers seamlessly within the Microsoft® PowerPoint® slides of your own lecture, in conjunction with the "clicker" hardware of your choice. **JoinIn on TurningPoint** is compatible with major electronic grade book systems such as **WebCT®**, **Blackboard®**, and **ThomsonNOW™**.

ExamView® Testing Software 0-495-31931-7

ExamView® Assessment Suite Helps you to create customized tests in print or online in minutes! Contains all *Test Bank* questions in electronic format. You can easily edit and import your own questions and graphics, and edit and maneuver existing questions.

Instructor's Resource Manual 0-495-31929-5

Coordinated and written by Randolph Smith, Kennesaw State University, and housed in a convenient binder that you can personalize to your needs, the *Instructor's Resource Manual* includes a Resource Integration Guide, Lecture/Discussion Topics, Demonstrations/Activities, PsykTrek™ Integration, Suggested Readings, Handouts, and Transparency Masters, as well as additional essays by successful professors, which cover strategies for effective teaching, media for introductory psychology, and more.

Test Bank 0-495-31934-1

Written by Cheryl Hale, Jefferson Community College, each chapter of this *Test Bank* includes approximately 5–10 essay, 200 multiple-choice, 20 fill-in-the-blank, and 20 true/false questions. Some multiple-choice questions are pulled from the *Study Guide*, making this a particularly cohesive package.

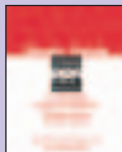

PLUS exceptional resources that help students succeed

To package any of these items with Weiten's text, please contact your Thomson Wadsworth representative.

Art and Lecture Outlines 0-495-31933-3

Written by Brian Malley, University of Michigan, this new supplement is designed for convenient note taking and review, featuring printed Microsoft® PowerPoint® slides and selected textbook art—including new anatomical art by distinguished artist Fred Harwin. These slides match those featured in the instructor's **Multimedia Manager**, so students can spend more time listening and participating in class and less time writing.

Study Guide 0-495-31928-7

Written by Richard Stalling and Ronald Wasden, the *Study Guide* includes an engaging, multi-featured review of key ideas for each chapter—organized around learning objectives written by Wayne Weiten—a review of key terms, a review of key people, and a self-test for each chapter.

Also available for packaging with each text

- **Writing Papers in Psychology**, Seventh Edition, by Ralph L. Rosnow and Mimi Rosnow 0-534-53331-0
- **Writing With Style: APA Style Made Easy**, Third Edition, by Lenore T. Szuchman 0-534-63432-X
- **Introduction to Positive Psychology**, by William C. Compton 0-534-64453-8
- **Careers in Psychology: Opportunities in a Changing World**, Second Edition, by Tara L. Kuther and Robert D. Morgan 0-495-09078-6
- **Challenging Your Preconceptions: Thinking Critically About Psychology**, Second Edition, by Randolph A. Smith 0-534-26739-4
- **Cross-Cultural Perspectives in Introductory Psychology**, Fifth Edition, by William F. Price and Richley H. Crapo 0-534-54653-6
