

Need help with your online homework?

Make the most of your CengageNOW™ account.

Visit academic.cengage.com/support and select CengageNOW from the “Student” drop-down and click “Go.”

You'll find:

- ▶ A Start Smart Guide that gets you up and running quickly
- ▶ A list of Frequently Asked Questions that shows you how to get the most out of CengageNOW
- ▶ Downloads and technical information for optimizing the performance of CengageNOW on your computer
- ▶ An email link to submit your questions to a Cengage Learning technical support specialist
- ▶ An online chat feature that allows you to quickly ask CengageNOW support questions in real time.

Important Information:

Mainstream browsers (Internet Explorer and Mozilla Firefox) are compatible with CengageNOW. Make sure your computer is ready to begin using CengageNOW content by following these easy steps:

1. Go to the web address:
academic.cengage.com/now
2. Near the bottom of the web page, under “Students” in the “User’s Resources” section, click “Browser Setup Help.”
3. A Java applet window opens (if it doesn’t, then either Java needs to be set up or popups are blocked).
4. Go through the items in both the “System Requirements” and “Setup and Troubleshooting” sections to verify/change configuration.
